

Disability Rights Nebraska

Protection and Advocacy for People with Disabilities

Annually, we reflect on our 5-year Strategic Plan and establish our goals and objectives for the upcoming year. The Strategic Plan sharpens our focus onto three Priority areas: Freedom from Harm, Most Inclusive Settings, and Engaging People with Disabilities in Advocacy.

Disability Rights Nebraska seeks to be an inclusive organization. In all of our work, our goal is to involve and feature people with disabilities in meaningful roles: as participants, as trainers, as personal experts on the life experience of a person with a disability. We challenge other organizations and policy-setting groups to engage people with disabilities in such meaningful roles.

Please take a few minutes to complete the survey before July 26, 2022, to tell us what you think of our focus areas for Fiscal Year 2023.
